This classic series will titillate students imaginations while enriching skills in logical thinking. Logic Liftoff problems are easy to incorporate into lesson plans and are formatted to enhance the fullest spectrum of curriculum areas while sharpening thinking skills. Challenging and instructional, these thought-provoking books present sequential exercises in logical reasoning that include relationships, analogies, syllogisms, sequences, deductive reasoning, inference, truth-values, and logical notation. Simple grids coupled with intriguing problems evoke enthusiasm and inspire students to higher and higher levels while of thinking acuity. Each book builds on concepts presented previously in the series to offer a comprehensive logic adventure for young thinkers. The skills students build by using this book are applicable to several areas of the curriculum. Academic skills used in reading, math, writing, and science all depend on the ability to perceive and define relationships, sequence events, and form inferences. But beyond the academic world, students will find logical thinking an integral part of everyday life. This is the second in a three-book series designed to sharpen childrens logical thinking skills. Once students have mastered Logic Countdown they are ready to meet new challenges in Logic Liftoff and Orbiting with Logic. Grades 4-6 This item ships from multiple locations.
