Selenium WebDriver contains valuable information for testers

without previous programming knowledge. The book is written

with the absolute beginner in mind, so that they may gain a

thorough understanding of Java. Important Java concepts are

explained in a very simple, insightful, and easy to understand

manner through straightforward definitions, explanations, and

examples. Most instructional Java books provide good

information, but some of the information is not significant to

automation testers. Moreover, there are Selenium books

that do not offer adequate information regarding Java. The

focus of Selenium books is to learn the...
